ICIEE 2025

2025 14th International Conference on Information and Electronics Engineering

February 14-16, 2025, Singapore

2025 14th International Conference on Information and Electronics Engineering will be held in Singapore during February 14-16, 2025. It aims to provide a more ideal forum for researchers, practitioners, and professionals from the industry, academia and government who are working in the field of information and electronics engineering to discourse on research and development, professional practice in related fields.

ICIEE 2025 is co-organized by College of Design and Engineering of National University of Singapore and Jeju National University, and technically supported by Fukuoka Institute of Technology. ICIEE 2025 hopes to attract papers related to the latest implementation of applications, principles, and algorithms in the broad area of information and electronics engineering, including but not limited to computer science, information sciences, and telecommunications.

Publications

Peer-reviewed papers accepted by ICIEE2025 will be published in conference proceedings, which will be submitted to Scopus, Ei Compendex, etc., for indexing.

Publication History:

- ICIEE 2023 conference proceedings available in volume 2559 of Journal of Physics: Conference Series, and indexed by El Compendex and Scopus.
- ICIEE 2022 conference proceedings available in volume 2261 of Journal of Physics: Conference Series, and indexed by El Compendex and Scopus.

A set of selected papers with extended parts will be published in the International Journal of Electrical and Electronic Engineering & Telecommunications (ISSN: 2319-2518), which will be indexed by Scopus, Google Scholar, Crossref, Citefactor.

Important Dates

Submission Deadline: September 10, 2024 Acceptance Notification Date: October 5, 2024 Authors' Registration Deadline: October 20, 2024

Contact Information

Conference Secretary: Chris Zhang Email: iciee_general@outlook.com

Call for Papers

 Integrated Circuit Design Theory and Technology Electronic control and instrumentation Embedded Systems Circuits and Systems Electronic device.....

Coding and Signal Processing

Channel Coding Space-Time Signal Processing MIMO and OFDM Systems Signal Detection and Estimation Audio/Speech Signal Processing Image/Video Processing and Coding.....

 Electromagnetic Field and Microwave Technology Antennas - Design, Modeling and Measurement Microwave Circuits - Systems and Applications Computational Electromagnetics Radio Propagations Integrated Optics.....

More topics, please visit the conference website: https://www.iciee.org/cfp.html
